Harbor Point Water Authority 2024 Operations Report

1. Overview

The Harbor Point Water Authority served 208,500 residents across the municipalities of Alder Bay, Kestrel Falls and Morrow Junction during 2024. The authority was established in 1968. Marcus Elling served as Chief Operating Officer for the reporting year.

This report summarises treatment, distribution and financial performance. Figures are unaudited unless stated otherwise.

2. Treatment

The Eastgate Treatment Plant has a rated capacity of 96 million liters per day. Average daily production in 2024 was 69.9 million liters.

Coagulant dosing used aluminium sulfate throughout 2024.

3. Distribution

The distribution network comprises 1,140 km of water mains. Non-revenue water, the share of treated water that is lost or unbilled, was 19.3 percent. Crews replaced 17 km of cast-iron mains and responded to 211 main breaks.

4. Finance and outlook

The operating budget for 2024 was 45.7 million dollars. The 2025 capital program focuses on pump station telemetry upgrades.
